

Biology Faculty Position

College of the Ozarks invites applications for a full-time teaching position in its biology department. The primary responsibilities for this position will include classroom and laboratory instruction for upper-level human physiology and general biology for majors. The successful candidate may also teach additional courses in immunology, embryology or other courses related to their field of expertise. Most biology majors are pre-professional students in health-related fields (pre-med, pre-dental, pre-PA, etc.) or students seeking admission to biology graduate programs. A Ph.D. in biology or a terminal degree in a related field is preferred. Rank and salary commensurate with qualifications and experience; may lead to a multi-year letter of appointment. Non-teaching responsibilities include maintaining laboratory equipment, advising students, supervising student workers in the biology department, participating in semiannual faculty workshops, serving on campus committees, and attending monthly division meetings.

Our student-focused undergraduate institution values self-motivated, versatile faculty with strong teaching skills and the ability to work and communicate effectively with other faculty members. The successful candidate will embrace the College's Christ-centered mission, demonstrate a commitment to undergraduate teaching excellence, desire to serve as a mentor and positive role model, and pursue integration of biology and Christian faith.

College of the Ozarks is a small (1,400 students), liberal arts, work-study college with a commitment to evangelical Christian faith and service, located in southwest Missouri near Branson (www.cofo.edu). Class sizes are small, generally 15-30 students in STEM courses. There is a strong sense of community among faculty, staff, and students not found at many institutions.

Send letter of application, CV, transcripts, and three letters of recommendation (including one from your pastor) to Dr. Eric Bolger, Provost, PO Box 17, Point Lookout, MO 65726, or email aoliver@cofo.edu. The preferred start date is August 2025.
